At Akuart, we are dedicated to designing and producing innovative acoustic solutions that balance functionality with aesthetics. We specialise in sound-absorbing panels and screens, creating customisable, high-quality designs that improve the acoustic environment in various spaces, including offices, schools, healthcare facilities, hospitality settings, and public venues. Our panels not only reduce noise but also serve as artistic canvases, making them an ideal choice for those looking to enhance sound quality without compromising on visual appeal.

We are committed to sustainability and incorporate eco-friendly practices throughout our processes to minimise the environmental impact of our products. Our efforts focus on reducing waste, conserving resources, and making thoughtful decisions that contribute to the long-term health of the planet.

WALL PANELS

SUPERSONIC WALL PANEL

The Supersonic Wall Panel is an exclusive range of acoustic wall panels with print that sets a new standard for sleek yet responsible acoustic design in office, learning, care, and hospitality environments. It offers numerous possibilities for creating aesthetically stimulating interior designs with an extensive range of frame colours, a changeable canvas, Class A sound absorption, format flexibility, a shadow-effect frame, and a strong sustainability profile. The panels are made with a high percentage of recycled materials, and a disassembly function allows all components to be repaired and recycled after end use.

SUPERSONIC WALL PANEL

55 mm acoustic wall panel with a changeable printed canvas.

Standard Options

- / All prices exclude VAT, shipping, and installation.
- / All prices include canvas designs from the categories: **Colours & Patterns** and **Photography**.
- / Wall mounts are included. Screws and rawl plugs are excluded.

Additional Options

- / The standard Supersonic Wall Panel range comes with a frame made from 75% recycled aluminium.
- / A 100% recycled aluminium frame (100R) is available. To select this option, add '-100R' to the item number (e.g. SS50WP-60120-100R). **The prices for 100R (100% recycled aluminium) are marked in grey.**
- / Additional canvases are available and priced per m².

CO2 Measurements

/ **The CO2 measurements apply to stages A1-A3**, which cover raw material extraction, transport to production, and product manufacturing. **The CO2 measurements for 100R (100% recycled aluminium) are marked in grey.**

SUPERSONIC VERTICAL SUSPENDED SCREEN

The Supersonic Vertical Suspended Screen is perfect for designing acoustic and visual zones between clusters of workstations and creating beautiful interior designs. The wire-suspended acoustic screen offers creative freedom to match any aesthetic narrative without compromising its superb functionality. It comes with a variety of special features, including a vast colour range, the characteristic Akuart changeable canvas and a design-for-disassembly product philosophy, making it possible to recycle every single component.

SUPERSONIC VERTICAL SUSPENDED SCREEN

Suspended acoustic screen with replaceable printed canvases on both sides.

Standard Options

/ All prices exclude VAT, shipping, and installation.

/ All prices include canvas designs from the categories: **Colours & Patterns** and **Photography**.

/ Ceiling mounts and wires are included in the price for standard sizes.

Additional Options

/ Floor mounts are optional for securing the screen to the floor

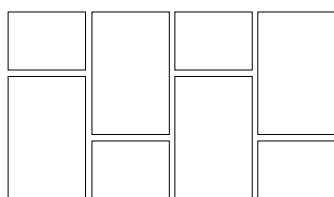

/ Additional canvases are available and are priced per m². Custom-sized canvases under one m² are priced as one m².

SUPERSONIC WRITING BOARD

The Supersonic Writing Board brings structure and expression to the workspace with a bold, industrial edge. Framed in raw or powder-coated aluminium, it introduces a tactile, architectural presence that enhances both function and aesthetics. With a seamlessly integrated ceramic surface, it transforms any wall into a dynamic canvas — ideal for visualising ideas, mapping workflows, or sparking spontaneous collaboration.

Built for longevity, its modular design allows for easy disassembly and repair. As needs shift, the Supersonic Writing Board evolves with them, a future-proof solution for offices, learning spaces, studios, and beyond.

SUPERSONIC WRITING BOARD

55mm writing board with a magnetic ceramic surface

Marker / Holder (Magnetic)

Magnets (5pcs.)

The In Your Room modular room-in-room system provides a flexible and customisable solution for creating acoustically friendly, semi-open spaces within larger areas, such as open-plan offices or shared work environments. Its intuitive modular design enables users to effortlessly combine various pre-assembled elements, including acoustic panels, glass, open modules, support posts, and bars. This versatility simplifies the creation of everything from individual workspaces to collaborative environments.

A standout feature of the system is its sound-optimising performance, which balances noise absorption with sound blocking to ensure ideal acoustic conditions for both individual tasks and group activities. This helps to minimise workplace distractions and enhances productivity. Moreover, the system is designed for straightforward installation, requiring only basic tools and allowing for rapid assembly, even for larger configurations.

The In Your Room system offers six predefined configurations—Block, Cell, Compartment, Locale, Place, and Site—each tailored to specific uses such as workspaces, meeting rooms, or lounge areas, providing flexible options for a variety of professional settings. Available in multiple sizes and an extensive range of colour options, the system integrates seamlessly with modern interiors. Finally, its modular framework is designed to adapt to organisational changes, making it easy to reconfigure or expand the system as business needs evolve.

IN YOUR ROOM

A modular room-in-room workspace framework that creates partitioning and semi-open spaces.

In Your Room Modules

/ All prices exclude VAT, shipping, and installation.

Custom Configurations

/ Custom configurations for the In Your Room System use acoustic, glass, or open modules.
/ Each custom setup must be approved by Akuart to ensure stability, feasibility, and safety.

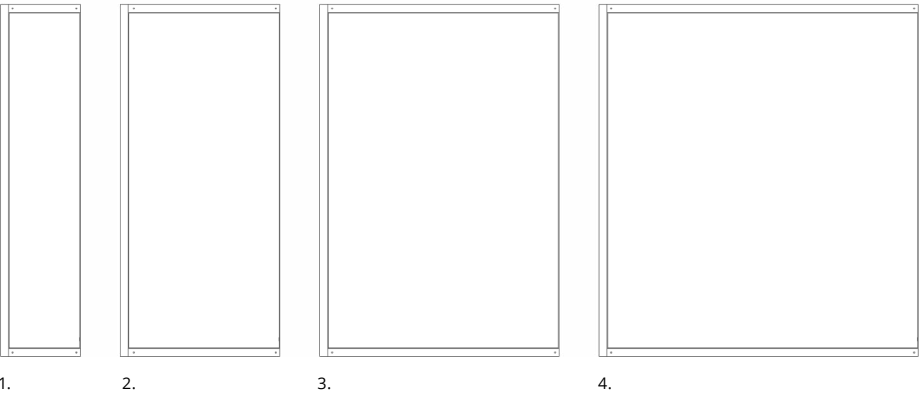

Additional Options

/ Additional canvases are available and priced per m².

IN YOUR ROOM

Frame Finish / Canvas Texture: Transformer 2.0

Custom Frame Design

/ Custom colour frames in RAL or NCS colours can be delivered with different paint textures. Price and finish available on request.

AKUART TERMS & CONDITIONS

The following terms & conditions apply unless specifically modified by a written agreement between the two parties.

Prices

All prices are quoted in SEK, excluding VAT, and are valid from 1st January 2025. Previous price lists are now invalid. Prices will remain unchanged throughout the agreement or offer period. Akuart reserves the right to change prices, designs, payment terms, and to correct any errors in pricing or product descriptions. For the most up-to-date price list, please contact Internal Sales Support.

Offers

Offers are valid for 30 days unless otherwise stated. Orders are only accepted upon receipt of a written purchase order.

Payment Terms

Payment is due within 30 days net or as otherwise agreed. The goods remain the seller's property until payment is received in full. Akuart reserves the right to conduct credit checks. Payment details will be provided on the invoice.

Delivery Terms

Incoterms 2020: DAP (Delivered At Place), including standard packaging.

Delivery Time

The delivery time will be specified in the order confirmation. Akuart is not liable for any direct or indirect losses resulting from delays. Delays do not entitle the Buyer to cancel the order.

Transport

Products will be delivered to the ground floor unless agreed otherwise. It is the Buyer's responsibility to move the product from the ground floor to its final location. Requests for additional services, such as indoor delivery or reloading, will incur extra charges. If the goods are being delivered to an end customer, it is the dealer's responsibility to ensure that access for a lorry with a trailer is possible. Akuart reserves the right to charge an additional freight surcharge if access is not possible. Any changes to the delivery address after dispatch will incur an additional cost.

Transport Damage and Complaints

Upon receipt, the recipient must check the number of items and their condition. Any damage or missing items must be noted on the consignment note and reported in writing to Akuart immediately. If hidden damage is discovered later, it must be reported to Akuart in writing no later than eight calendar days after receipt. All damage must be documented with photos to support the claim. Damaged goods must not be moved to another address. Complaints will only be processed once a detailed report with photos has been submitted to Akuart's Internal Sales Team. Akuart may require the return of the products for inspection. If the complaint is accepted, the damaged items will either be repaired or replaced.

Order Confirmation

The order confirmation forms the basis of the order. The Buyer must carefully review it within 48 hours. After this period, the order will be considered approved unless otherwise stated.

Returns

As all products are made to order, returns are generally not accepted. In exceptional cases, and only with prior agreement, standard products may be returned for a full refund.

Product Liabilities

Akuart is not liable for injury or damage unless it is proven that the damage was caused by gross negligence. Akuart is also not liable for consequential or indirect losses resulting from product liability.

Printing

Akuart uses printers that are meticulously calibrated to ensure consistent colour reproduction. However, slight variations in canvas colour may occur due to factors such as exposure to UV light, moisture, fabric weave differences, and ink variations.

Copyrights

If the Buyer wishes to print a motif not found in Akuart's image gallery, the Buyer must obtain the necessary permissions from any relevant rights holders. The Buyer agrees to indemnify Akuart against any third-party claims in this regard.

Force Majeure

Akuart is not liable for failure to meet obligations due to force majeure or other external factors outside its control, such as war, strikes, natural disasters, transport issues, government regulations, or supplier delays. Akuart will not be held responsible for any direct or indirect losses the Buyer or third parties may incur due to these circumstances.

CARE AND MAINTENANCE

Canvas / Textiles

- / Regularly dust with a soft brush or vacuum to prevent dirt accumulation.
- / Treat stains on the canvas promptly to prevent them from setting. Absorb excess liquid immediately.
- / Use antibacterial wipes or sprays to disinfect, always following the manufacturer's instructions.
- / Machine washing is applicable only for the detachable Supersonic Canvas. Remove the canvas carefully using the AKUART hand tag. The Canvas is washable at temperatures up to 60°C. Ensure it is completely dry before remounting.

Aluminium Frames

- / Regularly clean with a soft brush or vacuum to prevent dirt from accumulating.
- / Disinfect using antibacterial wipes or sprays, ensuring you follow the manufacturer's instructions.

Wooden Frames

- / Regularly clean using a soft brush or vacuum to prevent the build-up of dirt.

Writing Boards

- / Regularly clean using a soft brush or vacuum to prevent dirt build-up.
- / Steam Cleaning: Ensure you follow the appropriate instructions and safety guidelines.
- / Disinfect with antibacterial wipes or sprays, always adhering to the manufacturer's instructions.

GUIDE FOR HANDING OVER IMAGE FILES

At AKUART, we are committed to delivering exceptional print quality on our acoustic panel canvases. From intricate details to large-scale artwork, our digital printing process brings every element to life, adding depth and dimension to your space. We take meticulous care to capture the essence of your visuals with precision, ensuring the final product meets the highest standards.

To uphold this quality, we have created guidelines for submitting image files to ensure optimal resolution, colour accuracy, and print clarity. This guide provides clear instructions to help you prepare your artwork perfectly for printing, regardless of scale.

/ See specifications on the next page —>

Handover Specifications

Please review the requirements for submitting image files. If you find the details below too technical, don't worry. Simply send us the files, and we will assess whether the quality is sufficient for printing as an AKUART product. If the files do not meet the necessary standards, we will help find a suitable solution.

Photos

- Adobe RGB (also for photos in grayscale)
- 8bit
- Preferred file formats:
 - JPG at the highest possible quality
 - TIFF with ZIP compression enabled, no layers
 - RAW photo (with sidecar XML file if edited)
- If the photo is cropped, please provide the original file (uncropped)
- Photos should not be scaled; AKUART handles all scaling/interpolation
- Avoid photos in PDF format, if possible
- A 10 mm bleed will be subtracted from the final print file

Photos + Graphics / Text Composition

- InDesign package
- All fonts must be outlined
- All photo elements in Adobe RGB (refer to the above requirements for PHOTOS)
- Add a 10 mm bleed to the print file, ensuring full-colour bleeds are not empty
- A margin of 40 mm constitutes the "safe zone" for text, logos, etc.
- Avoid photos in PDF format, if possible

Graphics (Vector)

- Adobe RGB
- PDF, EPS, or AI format
- All fonts outlined
- 10 mm bleed added to the print file
- 40 mm margin as the "safe zone" for text, logos, etc.

File transfer

Please send all files via **akuart.wetransfer.com**

When submitting files through WeTransfer, include your name and any relevant order information (e.g., order number, project details, special requirements). This helps ensure the smooth processing of your submission and prevents delays.
