A childhood fascination with Zeppelin airships gliding with steady grace across the sky, inspired Iskos-Berlin to create Avion™. The large, oval pendant hovers playfully in the air, ready to change its direction to suit your desire. The pendant emits a soft, diffuse light that creates a cosy, natural atmosphere. Avion™ can be arranged in a regular formation, as a dynamic pack or similarly it can be suspended in a line to mark a passage through a building.

CONCERT™
JØRN UTZON 2005

01.2026

Concert™ gives a pleasant, non-glaring light without compromising the strength of illumination. The chosen shade configuration is visually characteristic of Jørn Utzon and reminds us of his greatest work — the Sydney Opera House. Concert™ is designed with four shades and a parabola of drawn steel, resting on a glass cone suspension. The suspension unit sends out a pleasant, even light between the shades. The bottom shade casts light downward to the parabola, which then diffuses it.

GamFratesi's inspiration for the Suspence™ pendant lamp series is translating a movement into a physical form and the shape of the lamp has been created by a soft pull, visually and physically connecting the cord with the shade. The infinity diffuser concentrates the light and prevents glare while creating an elegant optical illusion of infinite depth. The Suspence™ pendant comes with a matt lacquered aluminum shade and a colour-coordinated cord.
