About.

Maze is a Swedish furniture brand creating minimalist, functional, and eye-catching products designed to last longer than a lifetime. Working in close collaboration with carefully selected manufacturers and craftsmen, most of our production takes place in Sweden, with the remainder in Europe.

Sustainability is at the core of everything we do. We use wood from responsibly managed forests, recycled metal wire, and leather sourced from Scandinavian cattle — a by-product of the meat and dairy industry. Our products are designed by skilled Nordic designers who share our values and translate them into thoughtful form and colors.

For more than 20 years, Maze has remained true to the same sustainable vision. It hasn't always been the easiest path, but for us, it has always been the right one — driven by passion, dedication, and plenty of heart.

News.

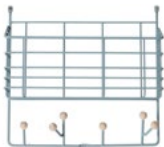

Gentle - the hallway series

Gentle, a new hallway collection designed by Lars Hofsjö. Combining function, flexibility, and aesthetics, it reflects Maze's philosophy of smart, long-lasting, space-saving storage. With a clean, understated design, thoughtful materials, and local production, Gentle is made to

endure both visually and practically. Crafted in oak and walnut veneer, the series includes a coat rack, shoe bench, and wall-mounted shoe shelf that form a cohesive hallway solution.

Sales start April 2026.

News.

Maze in the kid's room

Maze steps into the children's room with a new category designed to support everyday life through playful, functional, and space-efficient storage.

The collection features updated versions of existing designs and familiar products reimagined in new colors and formats, thoughtfully adapted for children's needs and environments. With durable materials, local production, and a clear design language, the series combines practicality with a warm, expressive character.

Created to grow with the child, these pieces offer accessible storage, lasting quality, and a natural extension of Maze's philosophy of smart, long-term design.

News.

F-shelf Play – Do it yourself!

F-shelf Play is the bedside table waiting for your personal touch. Crafted from solid, untreated pine, it gives you complete freedom to create your own expression. Paint it in your favorite color, stain it to highlight the natural grain of the wood, or let it blend seamlessly with your wall color for a softer impression. The result will be as unique as your home – the possibilities are endless.

L-shelf

L-Shelf is a wall-mounted bedside table and a continuation of Maze's first product, F-Shelf, designed by Kent Johansson. The shelf is based on an original concept from Maze's archive—drawn by Kent Johansson many years ago but only now put into production.

L-Shelf is made in oak or walnut veneer with a plywood core that is visible along the edges. The chamfered and mitered edges highlight the construction and create a distinct expression where the meeting of materials is clearly visible. In the walnut version, the light plywood core creates a clear contrast against the veneer, while the oak version has a more cohesive appearance, with the veneer and edge close in tone.

Cinnamon!

Frank, Nancy, and Anyone are now available in Cinnamon — a warm, inviting shade that brings depth and character to the space. The rich tone adds a sense of softness and warmth while enhancing the products' clean design, creating a balanced expression that feels both modern and timeless.

EPD

Environmental Product Declaration.

Certified

For over 20 years, sustainability has been at the core of our work, and now we're proving it—42% of our product range is certified with Life Cycle Assessments (LCA) and Environmental Product Declarations (EPD). This milestone increases transparency, meets industry demands, and strengthens our commitment to a sustainable future.

The results, compiled with expert support and third-party verified, provide reliable insights into our environmental impact, helping customers make informed, eco-conscious choices. With EU standards increasingly prioritizing environmental certifications, we're leading the way and aiming to certify our entire range.
