

PRICE LIST 2026

HOME COLLECTION & OFFICE SEATING

SE – EN

A digital price list with a visual product information tool for Sales and Retail.

Quick and easy access to up-to-date product information anytime and anywhere.

Start using pCon.facts

Prices valid from 1st January 2026

Areas of use

Some products are recommended for domestic use only. Such information is noted in the description of materials.

Special requirements and standards apply for furniture that will be subject to intensive usage in public spaces, such as educational institutions, fast food restaurants or event venues. Please ask our sales representatives about the suitability of the respective Vitra product for these kinds of applications before placing an order.

Outdoor applications

Level 1: suitable for utilisation in outdoor conditions on a temporary basis. Avoid prolonged exposure to rain, snow or direct sunlight. Product may be kept in covered outdoor spaces protected from the elements.

Level 2: suitable for utilisation outdoors on a temporary or seasonal basis, following care instructions. After prolonged exposure to the elements, clean and store away in a dry, sheltered place to ensure lasting use and avoid any deterioration in appearance.

Level 3: suitable for unrestricted use outdoors.

Quick Ship

All products in the **Quick Ship** programme are identified in the price list by a lorry symbol.

General terms, conditions
and information

All measurements are pursuant to EN 1335-1:2000

More detailed information is found in the chapter 'Explanation of measurements'.

Seat shell: integral skin polyurethane foam. Shell with upholstered effect, self-supporting on a tubular steel frame. Flexible backrest with integrated leaf springs.

Base/stackability: back legs in tubular steel, front legs in aluminium profile, powder-coated. Stacking and non-stacking versions. Up to 10 chairs can be stacked on the floor, up to 20 chairs on a stacking trolley. Fitted with plastic glides for carpet or felt glides for hard floors.

Outdoor applications: powder-coated base suitable for use in outdoor conditions on a temporary basis. Avoid prolonged exposure to rain, snow or direct sunlight. Product may be kept in covered outdoor spaces protected from the elements.

Eames Fiberglass Chairs

Charles & Ray Eames, 1950

All measurements are pursuant to EN 1335-1:2000
More detailed information is found in the chapter 'Explanation of measurements'.

Seat shell: dyed-through, glass-fibre reinforced polyester (fibreglass), whose characteristic irregular surface may exhibit a varying pattern of fibres or deviations in colour as well as small specks of pigmentation. Just like the earliest models, today's fibreglass shells are also slightly transparent in some colours. Optionally available with a moulded foam seat cushion (screwed to the seat shell); cushion can be replaced by the Vitra service team.

LSR Base: wire base with cross struts, chrome-plated or powder-coated finish. Seat height 260 mm. (LSR = Lounge Height Side Chair, Rod Base)

DAR

DAW

All measurements are pursuant to EN 1335-1:2000
More detailed information is found in the chapter 'Explanation of measurements'.

Seat shell: dyed-through, recycled polypropylene, 100% recyclable. All models are available with a seat cushion (screwed to the seat shell) or full upholstery, both made of recyclable polyurethane foam 'V-Foam'. The fully upholstered version has moulded polyurethane foam padding covered in fabric, attached to the shell with a welted edge. Different shell and upholstery colours and various bases provide a multitude of possible combinations.

Note: due to the composition of the recycled material, the seat shell colours exhibit very subtle specks of pigment.

Options: the Eames Plastic Chair RE is available as a visitor chair, dining chair, rocking chair, swivel chair or in stacking versions and with ganging brackets for row seating. Beam-mounted shells are suited for use in waiting areas.

Eames Plastic Armchair RE DAR

Base: wire base with cross struts, chrome-plated or powder-coated finish. (DAR = Dining Height Armchair Rod Base)

Outdoor use: unupholstered version with powder-coated base suitable for utilisation outdoors on a temporary or seasonal basis, following care instructions. After prolonged exposure to the elements, clean and store away in a dry, sheltered place to ensure lasting use and avoid any deterioration in appearance.

Eames Plastic Armchair RE DAW

Base: wooden base in various shades of maple or honey-toned ash, stained and lacquered finish. Steel rod cross struts in basic dark. (DAW = Dining Height Armchair Wood Base)

Origin of wood: ash (*Fraxinus excelsior*) and maple (*Acer platanoides*) from Western Europe and/or Poland.

DSW

All measurements are pursuant to EN 1335-1:2000
More detailed information is found in the chapter 'Explanation of measurements'.

Seat shell: dyed-through, recycled polypropylene, 100% recyclable. All models are available with a seat cushion (screwed to the seat shell) or full upholstery, both made of recyclable polyurethane foam ‚V-Foam‘. The fully upholstered version has moulded polyurethane foam padding covered in fabric, attached to the shell with a welted edge. Different shell and upholstery colours and various bases provide a multitude of possible combinations.

Note: due to the composition of the recycled material, the seat shell colours exhibit very subtle specks of pigment.

Options: the Eames Plastic Chair RE is available as a visitor chair, dining chair, rocking chair, swivel chair or in stacking versions and with ganging brackets for row seating. Beam-mounted shells are suited for use in waiting areas.

Base: non-stackable wooden base in various shades of maple or honey-toned ash, stained and lacquered finish. Steel rod cross struts in basic dark. (DSW = Dining Height Side Chair Wood Base)

Origin of wood: ash (*Fraxinus excelsior*) and maple (*Acer platanoides*) from Western Europe and/or Poland.

HAL RE Sledge

HAL RE Tube Stackable

HAL Ply Tube Stackable stacking trolley

HAL RE Tube Armrest

HAL RE Tube Writing Tablet

HAL Stacking dolly

All measurements are pursuant to EN 1335-1:2000

More detailed information is found in the chapter 'Explanation of measurements'.

HAL Stacking Trolley

HAL Stacking Trolley is suitable for use with all stackable HAL models, with the exception of HAL Soft Tube stackable.

HAL seat cover

The fabric covers for the seat shells of HAL and HAL Ply provide enhanced comfort. They are available in various colours and can be easily attached and removed.

HAL seat cover: 100% polyester/polyurethane; two reverse flaps fit over top of backrest and front of seat. Available in Plano fabric in predefined colours (see Price List supplement for upholstery materials). Additional colours in the Plano collection can be selected for orders of 6 or more seat covers.

HAL row connector

The HAL row connector is a linking element in two sizes: 100 mm for a smaller and 180 mm for a larger distance between the chairs. The number clips of the linking elements for the .03 also match the new HAL linking element.

For the following HAL chairs, the linking elements can be used in both sizes:

- HAL RE Tube Stackable
- HAL Ply Tube Stackable
- HAL RE Tube Armrest

For the following HAL chairs, only the linking element of 180 mm can be used:

- HAL RE Armchair Tube Stackable
- HAL RE Tube Writing Tablet

Backrest: perforated plastic backrest in basic dark or soft grey, unupholstered. Armrests made of polypropylene in basic dark or dim grey.

Seat: seat upholstery made of recyclable polyurethane foam 'V-Foam'. Seat cover in fabric or leather.

Base: tubular steel cantilever base, in chrome or powder-coated in basic dark or soft grey. Can be stacked (max. 4 chairs).

Note: as stacking can cause scratches, we recommend the chrome version for this purpose. In the stackable version, the seat cover is in basic dark (with armrests in basic dark) or soft grey (with armrests in dim grey).

Optional accessory: a multipurpose folding desk tablet in black plastic is available for the version in chrome.

ID Visitor Mesh

Backrest: plastic backrest covered with 3D spacer fabric; double seam around the edge. Armrests made of polypropylene in basic dark or dim grey.

Seat: seat upholstery made of recyclable polyurethane foam 'V-Foam'. Seat cover in woven fabric or 3D spacer fabric.

Base: tubular steel cantilever base, in chrome or powder-coated in basic dark or soft grey. Can be stacked (max. 4 chairs).

Note: as stacking can cause scratches, we recommend the chrome version for this purpose. In the stackable version, the seat cover is in basic dark (with armrests in basic dark) or soft grey (with armrests in dim grey).

Optional accessory: a multipurpose folding desk tablet in black plastic is available for the version in chrome.

Landi Chair

Hans Coray, 1938

vitra.

All measurements are pursuant to EN 1335-1:2000
More detailed information is found in the chapter 'Explanation of measurements'.

Seat shell: seat shell in pressed aluminium sheeting with 91 punched holes, matt anodised surface.

Base: armrests and legs from bent aluminium profiles, with welded aluminium cross braces, matt anodised surface.

Glides: glides in light grey injection-moulded TPE.

Outdoor use: suitable for unrestricted use outdoors.

Note: as in the original design, the Landi Chair can be stacked up to 6 units high. Vitra's re-edition of the classic stays true to the original while making the most of the latest technical possibilities. The anodised aluminium surface of the chair is durable and weather-resistant but may develop signs of wear and tear if the chairs are stacked.

Panton Junior

Verner Panton, 1959/1960

All measurements are pursuant to EN 1335-1:2000
More detailed information is found in the chapter 'Explanation of measurements'.

Back, seat and base: dyed-through polypropylene. Matt finish.

Outdoor use: suitable for utilisation outdoors on a temporary or seasonal basis, following care instructions. After prolonged exposure to the elements, clean and store away in a dry, sheltered place to ensure lasting use and avoid any deterioration in appearance.

Safety information: chair suitable for children aged 3 to 10 and for max. 34 kg (74 lbs). For children under the age of 3, there is an increased risk of a fall or of the chair tipping over. Do not let your child climb on the chair. Always make sure the chair is used in a safe place. A chair standing by a window, for example, may result in a child falling from a dangerous height.

Wire Chair DKR

All measurements are pursuant to EN 1335-1:2000

More detailed information is found in the chapter 'Explanation of measurements'.

Upholstery: unupholstered, with seat cushion, with classic seat and back pad or with Bikini Outdoor.

Classic seat and back pad: in fabric or leather. For the back pad in leather, the rear is always covered in Plano fabric, except for the version in leather snow, which is used on both the front and back.

DKR: Dining Height K-Wire Shell Rod Base

Seat shell: bent and welded steel wire, chrome-plated or powder-coated.

Base: four-legged base with cross struts, surface finish matched to seat shell. Fitted with plastic glides for carpet; felt glides for hard floors optionally available.

Bikini Outdoor: quick-drying, antibacterial padding for outdoor use made of polyurethane foam, resistant to light, water and mould (Oeko-Tex), easy to attach and remove from chair. Cover made of quick-drying outdoor fabric, washable at 30°C on a delicate cycle.

Outdoor use: unupholstered (classic upholstery) version with powder-coated base suitable for utilisation outdoors on a temporary or seasonal basis, following care instructions. After prolonged exposure to the elements, clean and store away in a dry, sheltered place to ensure lasting use and avoid any deterioration in appearance.

Wire Chair DKW

All measurements are pursuant to EN 1335-1:2000

More detailed information is found in the chapter 'Explanation of measurements'.

Upholstery: unupholstered, with seat cushion, with classic seat and back pad or with Bikini Outdoor.

Classic seat and back pad: in fabric or leather. For the back pad in leather, the rear is always covered in Plano fabric, except for the version in leather snow, which is used on both the front and back.

DKW: Dining Height K-Wire Shell Wood Base

Seat shell: bent and welded steel wire, powder-coated in basic dark.

Base: solid maple with stained and lacquered finish, steel rod cross struts. Fitted with plastic glides for carpet; felt glides for hard floors optionally available.

Origin of wood: maple (Acer platanoides) from Western Europe and/or Poland.

Bistro Stand-up Table

Ronan & Erwan Bouroullec, 2010

Table tops come in three materials: melamine faced, white surface, smooth straight plastic edge (19 mm); light or dark oak veneer, lacquer finish (Europe) (19 mm); solid core material in the colours white or black with black edge (12 mm). The solid core table top in black has an additional anti-fingerprint coating.

Base: pre-galvanised, powder-coated in basic dark (RAL 9004). The height of the base including screw-in glides is 1080 mm; the glides can be adjusted (max. extension 10 mm) for levelling on uneven floors.

Outdoor use: version with solid core table top suitable for utilisation outdoors on a temporary or seasonal basis, following care instructions.

After prolonged exposure to the elements, clean and store away in a dry, sheltered place to ensure lasting use and avoid any deterioration in appearance.

Table tops come in three materials: melamine faced, white surface, smooth straight plastic edge (19 mm); light or dark oak veneer, lacquer finish (Europe) (19 mm); solid core material in the colours white or black with black edge (12 mm). The solid core table top in black has an additional anti-fingerprint coating.

Base: pre-galvanised, powder-coated in basic dark (RAL 9004). The height of the base including screw-in glides is 715 mm; the glides can be adjusted (max. extension 10 mm) for levelling on uneven floors.

Outdoor use: version with solid core table top suitable for utilisation outdoors on a temporary or seasonal basis, following care instructions.

After prolonged exposure to the elements, clean and store away in a dry, sheltered place to ensure lasting use and avoid any deterioration in appearance.

Eames Contract Tables

Charles & Ray Eames, 1968

Table tops: available in four materials: melamine-faced white surface (25 mm) with smooth, flat plastic edge in white; wood veneer in light oak, lacquer finish or dark oak, lacquer finish (Europe) (25 mm) with flat veneer edge; solid core material in white (12 mm) with black edge; HPL (25 mm) with black edge.

Base: stable pedestal base, four-star legs in die-cast aluminium. Available in four versions: base polished or chrome-plated with column in basic dark (RAL 9004), all chrome or all powder-coated (textured finish) in deep black (RAL 9005) or white (RAL 9010). The height of the base including screw-in glides is 71 cm; the glides can be adjusted (max. extension 10 mm) for levelling on uneven floors.

Outdoor use: version with a powder-coated base and solid core top suitable for utilisation outdoors on a temporary or seasonal basis, following care instructions. After prolonged exposure to the elements, clean and store away in a dry, sheltered place to ensure lasting use and avoid any deterioration in appearance.

Super Fold Table

Jasper Morrison, 2015

vitra.

Table top: melamine faced in white with smooth straight plastic edge (19 mm), oak veneer (Europe) in light or dark oak (19 mm) or solid core material with black edge (12 mm) in the colours white or black. Solid core table top in black with anti-fingerprint coating.

Folding mechanism: die-cast zinc.

Column: powder-coated steel in basic dark.

Base: die-cast aluminium.

Outdoor applications: version with solid core table top suitable for use in outdoor conditions on a temporary basis. Avoid prolonged exposure to rain, snow or direct sunlight. Product may be kept in covered outdoor spaces protected from the elements.

Table tops

Substrate for HPL, melamine and veneer table tops

Description: high-density three-ply fine particle board panels (for interior fittings (including furniture)), for use in dry conditions) in accordance with DIN EN 312.

Table top thickness: approx. 22 mm.

Safety: all corners and edges are rounded. Emission levels are below the legal limit specified for emission class E1 (non-hazardous).

Melamine-faced table tops

Description: the laminated chipboard (MFB = melamine-faced board) is a fine particle board (P2) coated with melamine resin in accordance with DIN EN 14322.

Surface: reflection values, sheen and brightness are below the thresholds recommended for standard workstations.

Edge: the table top has plastic lipping, 2 mm thick.

Safety: all corners and edges are rounded.

Table tops with anti-fingerprint coating

Description: the plastic-coated flat press board is a fine particle board (P2) directly faced with an acrylic ABS coating in accordance with DIN EN 312:2010. The table top is made from 60% recycled wood and meets the highest ecological standards.

Surface: the matt surface with anti-fingerprint effect reduces light reflections and prevents visible fingerprints. The reflection values, sheen and brightness of the black surface are not within the limits recommended for computer workstations; this product version therefore does not bear the GS seal.

Edge: the table top has plastic lipping, 2 mm thick.

Safety: all corners and edges are rounded.

Genuine wood veneer table tops

Description: light oak veneer with continuous grain pattern.

Surface: protected by multiple coats of polyurethane lacquer.

Edge: continuous flat wood veneer lipping, 2.5–3 mm thick.

Safety: all corners and edges are rounded.

The maximum load capacity per seat is 100 kg.

Under-table elements

Leg columns

Description: precision columns made of tubular steel, powder-coated, diameter 70 mm. For motor-driven height-adjustable columns, the electrical control system is integrated in the master column, while the follower column is controlled via motor cable. The columns are attached directly to the die-cast side element and the frame tubes.

Height-adjustment: telescoping 3-tier column, continuous height adjustment from 650 to 1250 mm, motor-operated. Motors are integrated in the column. Fixed height is 74 cm.

Glides with levelling adjustment (+/- 5 mm) for uneven floors.

Safety: anti-collision device with desk sensor to protect against material damage; plug-in adapter using gyro-based technology detects any slope in the angle of the table top and triggers an immediate stop and change in direction of movement to avoid material damage. Anti-collision sensors are a technical safety feature of the table system; they are not designed to protect against personal injury or pinching. Deliberate and controlled height adjustment of the table on the part of the user remains absolutely essential.

Control unit

The control unit is equipped with a memory function, display and key lock. Before the lever switch can be activated to adjust the table height, the control unit must first be unlocked with a predefined key combination.

Further functional features:

- Memory function with up to 4 memory positions.
- Automatic prompt on LED display reminding the user to change from sitting to standing at three self-defined intervals..
- OLED display showing table height setting or for error code readout.
- Bluetooth interface for Desk Control™ app. Enables a connection to the table controls, so the user can set personal goals for working in a standing position and define individual time intervals with the memory function.

For safety reasons, the Bluetooth interface does not allow control of table height adjustment by app.

Horizontal leg

Description: Horizontal leg made of die-cast aluminium, powder-coated in the same colour as leg column, equipped with glides made of injection-moulded plastic for levelling on uneven floors (range 0-10 mm).

Dimensions: W 701 x D 75 x H 53 mm.

Frame tubing

Description: frame constructed from rectangular metal tubing, powder-coated, cut-outs with safety radius for efficient cable management. Connected to top of columns as a support for the table top.

Dimensions: W 1258/W 1458/W 1658 x D 30 x H 40 mm.

Safety: all corners and edges are rounded.

Die-cast side element

Description: die-cast zinc, powder-coated finish, attached to top of column. Serves as mount for strain relief and CPU holder.

Dimensions: W 400 x D 40 x H 49 mm.

Cable cover made of polyester fleece

Description: cable cover made of polyester fleece panels in various colours. The material has effective acoustic properties. Screwed directly to the table top and tubular frame, it conceals the frame elements as well as the height-adjustment controls, sensor and cables situated between them.

Dimensions after assembly: W 1274/W 1474/W 1674 x D 266 x H 44 mm, material thickness 3 mm.

Cable tray made of polyester fleece

Description: thermoformed polyester fleece cable tray in various colours. The material has effective acoustic properties. Easy access through zip opening and press stud flap along the back.

Dimensions after assembly for tables with depth of 70 cm: W 1274 x D 502 x H 70 mm, material thickness 3.8 mm.

Dimensions after assembly for tables with depth of 80 cm: W 1474/W 1674 x D 552 x H 70 mm, material thickness 3.8 mm.

Additional elements

Bracket

Description: two-piece bracket mount, powder-coated, with pressure plate in die-cast zinc; for table top thickness 22–28 mm. One adapter for a monitor arm or lamp can be attached per bracket mount. Can be attached anywhere along the edge of the table top, without tools, using a thumb screw. If the bracket mount is used to hold monitor arms, the thumb screw is replaced by a grub screw for added stability. If no adapter is attached, the bracket is delivered with a powder-coated metal cover over the connection point. The metal cover must be removed to allow retroactive attachment of an adapter.

Dimensions: W 105 x D 65 mm, surface covered on table top. Height measured from table surface 17 mm, table overhang 15 mm.

Tyde 2 Home Desk

vitra.

Lamp adapter for bracket mount

Description: for attachment to bracket mount; turned part in polished aluminium.

Version: for lamps incl. plastic sleeve with inner diameter of 10 or 11 mm.

Dimensions: H 45 mm, outer diameter 30 mm.

Monitor adapter for bracket mount

Description: for attachment to bracket mount; polished die-cast aluminium.

Version: incl. rotation lock, exclusively for monitor arm Humanscale M2.1.

Dimensions: H 45 mm, outer diameter 30 mm.

CPU holder

Description: for attachment under the table top, mounted on the die-cast side element. CPU holder made of powder-coated sheet steel. Fastening strap; tightens with plastic buckle. Socket under table provides CPU with access to power connections.

Can be mounted facing inwards or outwards. Max. dimensions of CPU: D 650 x H 490 mm, min. dimensions of CPU: W 45 x H 175 mm.

Dimensions of sheet steel holder: W 240 x D 100 x H 375-490 mm.

Safety: max. load capacity: 15 kg.

Electrification

General note

VDE regulations specify that electrical work may only be performed by qualified technicians. Special training is not required for the routing and attachment of cables with plug connections. It is advisable to assess the number and type of devices requiring power connections before ordering electrical components. Our sales team will be happy to provide assistance.

Cable outlet

Description: cable outlet made of plastic (two-part), rotating cover.

Dimensions: Ø 80 mm, protrudes 3 mm from surface.

Power outlets

Description: holds 1 under-table power outlet. Connected to table top (facing forwards) with metal bracket. Sockets are supplied with GST18 plugs.

Cable tube

Description: flexible cable tube made of polyethylene with hook-and-loop fasteners on both ends for attachment. Reconfiguration is possible without a loss of cable length. Holds up to 4 cables.

Safety: cable strain relief is always integrated in die-cast side element.

Dimensions: L 1250 mm, L 1100 mm for clusters with cable channel.

MW: Factory assembled

MB: Assembled on site (assembly equipment on request)

Possible configurations:

- single row
- double row (back to back)
- single row with alternately positioned seats facing front and back ("kissing position")

Examples of orders for versions with integrated foam seat and back:

3 x P1	418 100 00 21	integrated foam seat and back
1 x B3	418 101 00 03	base frame for four seating units
2 x F2	418 102 00 02	leg with armrest
1 x TB	418 104 00 02	black compact laminate table unit

The configuration is defined from right to left in sitting position.

Sample configuration:

Notes:

Only the TS component can be used as a side table.

With two side tables the minimum configuration consists of three seating units.

A maximum of four elements (seating/table unit TB) and two side table units (TS) can be mounted on a stretcher with two legs. A double bench is always made up of at least two double connections (L1 or L2).

In the case of assembly ex works be sure to state the configuration sitting from right to left (see order example above).

Eames Plastic Chairs RE

Charles & Ray Eames, 1950

Eames Plastic Armchair on beam

All measurements are pursuant to EN 1335-1:2000
More detailed information is found in the chapter 'Explanation of measurements'.

Seat shell: dyed-through, recycled polypropylene, 100% recyclable. All models are available with a seat cushion (screwed to the seat shell) or full upholstery, both made of recyclable polyurethane foam 'V-Foam'. The fully upholstered version has moulded polyurethane foam padding covered in fabric, attached to the shell with a welted edge. Different shell and upholstery colours and various bases provide a multitude of possible combinations.

Note: due to the composition of the recycled material, the seat shell colours exhibit very subtle specks of pigment.

Options: the Eames Plastic Chair RE is available as a visitor chair, dining chair, rocking chair, swivel chair or in stacking versions and with ganging brackets for row seating. Beam-mounted shells are suited for use in waiting areas.

Table unit: black solid core material (560 x 430 mm).

Base: two-legged base beams in different lengths accommodate 2 to 5 chair shells or table units. T-beam, epoxy-coated in basic dark, polished aluminium legs. Fitted with plastic glides for carpet or non-slip felt glides for hard floors.

All measurements are pursuant to EN 1335-1:2000
More detailed information is found in the chapter 'Explanation of measurements'.

Seat shell and recliner: polyurethane integral-skin foam (robust seat shell with upholstered effect, self-supporting structure on steel frame) or split leather cover.

Armrests: die-cast aluminium ring armrests with silver-tone coating or polished finish.

Base: aluminium T-beam as a supporting element. Natural anodised finish in silver-grey or polished anodised finish. Die-cast aluminium legs. Silver-tone coating or polished finish.

Table unit: black solid core material.

Note: a supporting beam with 2 legs can accommodate a maximum of 5 large elements (seat/table units) and 2 lateral table units. When designing the bench layout, please indicate the positions from left to right as viewed from the front (see ordering example below).

Position 1: seat
Position 2: seat
Position 3: table
Position 4: seat

vitra.

All measurements are pursuant to EN 1335-1:2000
More detailed information is found in the chapter 'Explanation of measurements'.

Seat shell: dyed-through, glass-fibre reinforced polyester (fibreglass), whose characteristic irregular surface may exhibit a varying pattern of fibres or deviations in colour as well as small specks of pigmentation. Just like the earliest models, today's fibreglass shells are also slightly transparent in some colours. Optionally available with a moulded foam seat cushion (screwed to the seat shell); cushion can be replaced by the Vitra service team.

RAR base: wire base with cross struts, solid maple runners. (RAR = Rocking Armchair Rod Base)

Origin of wood: maple (*Acer platanoides*) from Western Europe and/or Poland.

RAR

All measurements are pursuant to EN 1335-1:2000
More detailed information is found in the chapter 'Explanation of measurements'.

Seat shell: dyed-through, recycled polypropylene, 100% recyclable. All models are available with a seat cushion (screwed to the seat shell) or full upholstery, both made of recyclable polyurethane foam 'V-Foam'. The fully upholstered version has moulded polyurethane foam padding covered in fabric, attached to the shell with a welted edge. Different shell and upholstery colours and various bases provide a multitude of possible combinations.

Note: due to the composition of the recycled material, the seat shell colours exhibit very subtle specks of pigment.

Options: the Eames Plastic Chair RE is available as a visitor chair, dining chair, rocking chair, swivel chair or in stacking versions and with ganging brackets for row seating. Beam-mounted shells are suited for use in waiting areas.

Base: wire base with cross struts, chrome-plated or powder-coated finish, on solid maple runners. (RAR = Rocking Armchair Rod Base)

Origin of wood: maple (Acer platanoides) from Western Europe and/or Poland.

Grand Relax

Antonio Citterio, 2019

Seat/body: moulded polyurethane foam with plastic frame and integrated synchronised mechanism with locking device.

Seat heights: 415 mm (310 mm with applied load, measured in accordance with EN 1335-1:2000) or 465 mm (360 mm with applied load, measured in accordance with EN 1335-1:2000).

Base: four-star swivel base in die-cast aluminium, polished or powder-coated finish.

Seat cushion: chamber cushion filled with polyurethane foam lozenges and ball fibres.

Back cushion and neck cushion: chamber cushion filled with polyurethane foam cubes and a mix of goose feathers and down.

Note: Cushions should be regularly shaken and plumped to retain their original fullness and shape.

Note: The back shell, the understructure of the seat and ottoman, and the adjustment knob for backrest resistance are covered in Leather Forte (decorative split leather).

Note: The base version determines the finish of the other metal parts (mechanism control lever, cap on resistance adjustment knob).

Note: total height with headrest in highest position 1080 or 1130 mm.

Ottoman: MDF panel covered with polyurethane foam and polyester fleece; chamber cushion filled with polyurethane foam lozenges and ball fibres.

Base: non-swivel four-star base in die-cast aluminium, polished or powder-coated finish.

Glides: fitted with plastic glides for soft floors or felt glides for hard floors.

HAL Lounge Chair with loose cushion

HAL Lounge Chair integrated cushion

HAL Lounge Chair Ottoman

All measurements are pursuant to EN 1335-1:2000

More detailed information is found in the chapter 'Explanation of measurements'.

Chair/body: fibreglass-reinforced plastic shell made from post-industrial recycled ABS plastic, encased in moulded polyurethane foam.

Neck cushion filling: ball fibres and siliconised fibres.

Filling loose seat cushion: polyurethane foam.

Base: natural oak or dark oak; connection between shell and base made of die-cast aluminium, powder-coated in dim grey.

Seat heights: armchair with loose seat cushion 420 mm (320 mm with applied load, measured in accordance with EN 1335-1:2000); armchair with integrated seat cushion 400 mm (320 mm with applied load, measured in accordance with EN 1335-1:2000).

Ottoman: plywood panel, polyurethane foam and polyester fibre.

Base: natural oak or dark oak, leg connection in fibreglass-reinforced plastic.

Origin of wood: oak (Quercus robur) from Western Europe and/or Poland.

Glides: plastic glides for carpet or felt glides for hard floors.

Covers: removable.

Slow Chair (fabric)

Ronan & Erwan Bouroullec, 2006/2025

vitra.

Frame/cover: tubular steel frame with fabric cover stretched over the frame.

Cushions: one seat cushion and one neck pillow. The back cushions are from the Vitra Cushions collection: 40 x 30 cm and 65 x 30 cm.

Cushion filling: seat cushion contains 100% recycled PET fibres from post-consumer waste. Neck pillow and back cushions 40 x 30 cm and 65 x 30 cm (cushions with soft comfort) contain 100% recycled polyester from post-consumer waste.

Covers: removable.

Seat height: 400 mm (applied load 278 mm, measured in accordance with EN 1335-1).

Base: polished or powder-coated die-cast aluminium.

Glides: polyethylene.

Note: cushions should be regularly shaken and plumped to retain their fullness and shape.

Abalon Sofa

Abalon Platform

Abalon Table

All measurements are pursuant to EN 1335-1:2000
More detailed information is found in the chapter 'Explanation of measurements'.

Abalon Sofa

Body: metal frame with moulded polyurethane foam and polyester fleece.

Seat height: 400 mm (340 mm with applied load, measured in accordance with EN 1335-1).

Covers: knit fabric, removable. Front and back covers are separate and in different colours.

Legs: die-cast aluminium, powder-coated.

Beam: rectangular tubular steel, powder-coated.

Glides: non-slip plastic glides, suitable for soft and hard floors.

Abalon Platform

Seat surface: plywood panel with recyclable polyurethane foam 'V-Foam' and polyester fleece.

Seat height: 400 mm (340 mm with applied load, measured in accordance with EN 1335-1).

Cover: knit fabric, removable.

Base: non-swivel four-star base in die-cast aluminium, powder-coated finish, pedestal in steel, powder-coated finish.

Glides: plastic glides for soft floors or felt glides for hard floors.

Abalon Table

Table top: base material MDF (medium-density fibreboard) in real oak veneer or textured powder-coated finish; table thickness 25 mm with 15° bevelled edge.

Base: non-swivel four-star base in die-cast aluminium, powder-coated finish, pedestal in steel, powder-coated finish.

Glides: plastic glides for soft floors or felt glides for hard floors.

Alcove Cabin 2-Seater Highback

All measurements are pursuant to EN 1335-1:2000
More detailed information is found in the chapter 'Explanation of measurements'.

Structural frame: tubular steel with chrome-plated finish or powder-coated (smooth), metal frame with MDF base board.

Body: back and side panels with organic fibreboard core, connecting panel with organic fibreboard core and metal structure, connected with zip fasteners. Quilted cover with polyester-fibre padding.

Seat/back cushions: polyurethane foam and polyester fibre.

Seat height: 480 mm (385 mm with applied load, measured in accordance with EN 1335-1:2000).

Covers: removable.

Add-on table: thickness 25 mm, high-density three-ply fine particle board with melamine coating and 3-mm ABS edge; or MDF board, powder-coated (textured finish); or oak veneer (sourced in Europe) with straight veneered edge 2.5-3.0 mm. Table legs in tubular steel, chrome-plated or powder-coated (smooth). Additional reinforcement in the connecting panel for secure attachment of the table top to the body.

Table height: 725 mm.

Legs: tubular steel, chrome-plated or powder-coated (smooth). Felt glides. Optionally equipped with lockable castors, in black plastic, soft version for protection of hard floors (only for units without add-on table).

All measurements are pursuant to EN 1335-1:2000
More detailed information is found in the chapter 'Explanation of measurements'.

Structural frame: tubular steel with chrome-plated finish or powder-coated (smooth), metal frame with MDF base board.

Body: back and side panels with organic fibreboard core, connected with zip fasteners. Quilted cover with polyester-fibre padding.

Seat/back cushions: polyurethane foam and polyester fibre.

Seat height: 480 mm (385 mm with applied load, measured in accordance with EN 1335-1:2000).

Box: wooden carcass covered in polyurethane foam.

Tablet desk: thickness 25 mm, high-density three-ply fine particle board with melamine coating and 3-mm ABS edge; or MDF board, powder-coated (textured finish); or in oak veneer (sourced in Europe) with straight veneered edge 2.5-3.0 mm.

Covers: removable.

Legs: steel, chrome-plated or powder-coated (smooth). Felt glides. Optionally equipped with lockable castors, in black plastic, soft version for protection of hard floors (only for units without electrification).

Alcove Plus Desk

Ronan & Erwan Bouroullec, 2021

Body/structure: back and side panels with organic fibreboard core and metal frame, connected with zip fasteners. Quilted covers with polyester-fibre padding. A zip fastener along the front edge of the side panels allows for attachment to the optional Alcove Plus Paravent. Metal frame for stabilisation of back and side panels and for support of table top.

Covers: removable.

Table top: thickness 25 mm, high-density three-ply fine particle board with melamine coating and 3-mm ABS edge; or MDF board, powder-coated (textured finish); or in oak veneer (sourced in Europe) with straight veneered edge 2.5-3.0 mm.

Table height: 740 mm.

Cable basket: steel wire, powder-coated in black, W 444 x D 114 x H 164 mm. Maximum number of baskets for large desk: 3 units; medium desk: 2 units; and small desk: 1 unit.

Legs: tubular steel, chrome-plated or powder-coated (smooth). Non-slip glides, levelling adjustment +/- 10mm.

Electrification: When 'table-top electrification' is selected, please configure the suitable Port 120 or 180 as required and order separately along with the feed cable, cable conduit, under-table electrification, distribution block etc. At least one Alcove Plus Desk cable basket is required per Port. The simplest electrification version does not require a Port; cables can be installed on the surface of the table between the table top and panel. The minimum requirement is one cable basket, one power outlet strip and one feed cable. These must also be ordered separately.

Alcove Plus Paravent

Ronan & Erwan Bouroullec, 2021

Alcove Plus Paravent

Alcove Plus Paravent one-piece

Alcove Plus Paravent two-piece

All measurements are pursuant to EN 1335-1:2000
More detailed information is found in the chapter 'Explanation of measurements'.

Paravent: panel with organic fibreboard core. Quilted cover with polyester-fibre padding and a zip fastener on both sides for attachment to other Alcove Plus elements: Sofa, Love Seat, Work or Desk.

Cover: removable.

Legs: steel, chrome-plated or powder-coated (smooth). Felt glides.

Note: Alcove Plus Paravents are not designed for free-standing use. They must always be connected to another Alcove Plus element: Sofa, Work or Desk.

Anagram Sofa

Panter&Tourron, 2024

Anagram platform 900 x 1800 with panels and back cushions

Anagram platform 900 x 2200 with panels and back cushions

Anagram platform 1100 x 1650 with panels and back cushions

All measurements are pursuant to EN 1335-1:2000
More detailed information is found in the chapter 'Explanation of measurements'.

Anagram Sofa

Panter&Tourron, 2024

Legs: recycled aluminium, powder-coated.

Body: webbed aluminium frame.

Backrest cushions: filling 100% recycled PET fibres with components from post-industrial and post-consumer waste.

Soft and medium seat cushions: polyurethane foam core in separate pockets with chamber cushion overlay (soft version filled with 100% recycled PET ball fibre from post-consumer waste and medium version with 100% recycled PET fibres from post-consumer waste). Available with soft upholstery or in a medium comfort version with slightly firmer padding.

Seat height: 415 mm (applied load 325 mm for soft comfort version, measured in accordance with EN 1335-1:2000).

Platform connectors: recycled polyamide. At least two platform connectors are required to attach two platforms together.

Panels: integrated biofibre board, polyester fibre and cover.

Mounting bracket with tension strap for panels and attachable tables: bracket made of recycled polyamide, tension strap in polyester.

Attachable tables in solid wood: oak, natural, oiled finish, ash, black, lacquer finish or ash, cotton white, oiled finish.

Origin of wood: oak (*Quercus robur*) and ash (*Fraxinus excelsior*) from Western Europe and/or Poland.

Glides: non-slip.

Covers: removable. To avoid shrinkage or damage, covers should be professionally cleaned – do not put in the washing machine. A torque spanner is required to change panel covers or to install a new mounting bracket.

Note: cushions should be regularly shaken and plumped to retain their fullness and shape. Ripples and indentations from sitting (pressure marks) and partially visible outlines of the chamber cushions are characteristic of high-quality, soft upholstery in combination with a removable cover and can be more or less pronounced, depending on the selected cover material.

Individual cushions in many different sizes, cover materials and colours can be found in the Vitra Cushions collection at the end of the sofa chapter.

vitra.

2 1/2-Seater - full backrest, one-piece seat cushion

3-Seater - full backrest, one-piece seat cushion

3 1/2-Seater - open on left, one-piece seat cushion

Grand Sofà

Body: metal frame with moulded polyurethane foam.

Seat cushions: polyurethane foam core and chamber cushion (filled with polyurethane foam lozenges, latex and a mix of goose feathers and down).

Lumbar cushion 60 x 30 x 6 cm: filled with a mix of feathers/down and ball fibre.

Back cushion 60 x 52 x 8 cm: filled with a mix of feathers/down and ball fibre.

Back cushion 70 x 60 x 8 cm: filled with a mix of feathers/down and ball fibre – combination with neck cushion recommended.

Back cushion 90 x 60 x 8 cm, latex filling: heavy filling of latex and feathers – cushion nestles against the angled backrest when used without neck cushion.

Armrest cushion 59 x 27 x 15 cm: filled with a mix of feathers/down and ball fibre, sand-weighted.

Neck cushion 70 x 17 x 15 cm: filled with a mix of feathers/down and ball fibre, sand-weighted.

Covers: removable.

Legs: die-cast aluminium, polished or powder-coated.

Glides: non-slip.

Accessory: Sofa Tray made of steel, covered with split leather.

Note: the designations 'left' and 'right' refer to the perspective when viewing the sofa from the front.

Note: with the exception of neck and armrest cushions, all cushions are available in a tufted version.

Note: back cushions are not included with the sofa and must be ordered separately.

Note: cushions should be regularly shaken and plumped to retain their fullness and shape.

Applications: recommended for domestic use only.

Chaise Longue - right, one-piece seat cushion

Ottoman

Grand Sofà Chaise Longue

Body: metal frame with moulded polyurethane foam.

Seat cushions: polyurethane foam core and chamber cushion (filled with polyurethane foam lozenges, latex and a mix of goose feathers and down).

Lumbar cushion 60 x 30 x 6 cm: filled with a mix of feathers/down and ball fibre.

Back cushion 60 x 52 x 8 cm: filled with a mix of feathers/down and ball fibre.

Back cushion 70 x 60 x 8 cm: filled with a mix of feathers/down and ball fibre – combination with neck cushion recommended.

Back cushion 70 x 60 x 8 cm, latex filling: heavy filling of latex and feathers – cushion nestles against the angled backrest when used without neck cushion.

Back cushion 90 x 60 x 8 cm, latex filling: heavy filling of latex and feathers – cushion nestles against the angled backrest when used without neck cushion.

Armrest cushion 59 x 27 x 15 cm: filled with a mix of feathers/down and ball fibre, sand-weighted.

Neck cushion 70 x 17 x 15 cm: filled with a mix of feathers/down and ball fibre, sand-weighted.

Covers: removable.

Legs: die-cast aluminium, polished or powder-coated.

Accessory: Sofa Tray made of steel, covered with split leather.

Note: the designations 'left' and 'right' refer to the perspective when viewing the Chaise Longue from the front.

Note: the Chaise Longue with a divided seat cushion has two individual cushions.

Note: full-length seat cushions are always tufted.

Grand Sofà Ottoman

Structure: wooden panel, polyurethane foam and a chamber cushion filled with polyurethane foam rods, latex and a mix of goose feathers and down. Cushion in tufted version only.

Covers: removable.

Legs: die-cast aluminium, polished or powder-coated.

Glides: anti-slip glides.

Accessory: Sofa Tray made of steel, covered with split leather.

Polder Sofa

Polder Compact

Polder Ottoman

Structural frame: wooden frame.

Seat cushions: polyurethane foam with interactive pocket spring core, chamber cushion structure (filled with foam cubes and lozenges) and polyester fleece.

Back cushions: polyurethane foam with polyester fleece and chamber cushions (filled with foam cubes and lozenges).

Armrest cushion: detached bolster, freely positionable, sand-weighted, polyurethane foam filling.

Cover: coordinated combinations of various colours and fabric types, removable.

Buttons: made of wood or horn, colour and grain subject to natural variations.

Ottoman: wooden frame with polyurethane foam. The fabric and colour of the Ottoman matches that of the sofa.

Applications: recommended for domestic use only.

Note: you will find an overview of the colour and fabric combinations for the different sofa versions in the appendix 'Colour & Material Library'.

Note: the designations 'left' and 'right' refer to the perspective when viewing the sofa from the front.

Individual cushions in many different sizes, cover materials and colours can be found in the Vitra Cushions collection at the end of the sofa chapter.

Slow Sofa

Ronan & Erwan Bouroullec, 2025

vitra.

Frame/cover: tubular steel frame with fabric cover stretched over the frame. The back cushions are from the Vitra Cushions collection.

Cushions: 3 Vitra Cushions (40 x 30 cm, 65 x 30 cm, 60 x 40 cm) and 2 neck pillows.

Cushion filling: seat and back cushions 60 x 40 cm (cushions with supportive comfort) contain 100% recycled PET fibres from post-consumer waste. Neck pillows and back cushions 40 x 30 cm and 65 x 30 cm (cushions with soft comfort) contain 100% recycled polyester from post-consumer waste.

Covers: removable.

Seat height: 400 mm (applied load 278 mm, measured in accordance with EN 1335-1).

Base: polished or powder-coated die-cast aluminium.

Glides: polyethylene.

Note: cushions should be regularly shaken and plumped to retain their fullness and shape.

Suita

Antonio Citterio, 2010/2019

Suita Sofa 3-Seater, back cushions: classic

Characteristics:

- firm and soft upholstery
- Fabric and leather
- 3-Seater with 2 seat cushions and 2 back cushions

Suita Sofa 3-Seater, back cushions: pointed cushions

Characteristics:

- Soft upholstery
- Fabric and leather
- 3-Seater with 2 seat cushions and 5 back cushions

Suita Sofa 3-Seater, tufted

Characteristics:

- Soft upholstery
- Fabric, no leather
- 3-Seater with one one-piece seat cushion and 3 back cushions
- Daybed available

Suita

Antonio Citterio, 2010/2019

Suita

Legs: die-cast aluminium, polished or powder-coated.

Body: webbed metal frame with moulded polyurethane foam.

Classic seat cushions, firm: polyurethane foam and polyester fibre.

Classic seat cushions, soft and tufted: polyurethane foam core and chamber cushion overlay (filled with polyurethane foam lozenges, latex and a mix of goose feathers and down).

Seat height: 430 mm (315 mm with applied load, measured in accordance with EN 1335-1:2000).

Classic back cushions, firm: chamber cushions filled with polyurethane chips and feathers.

Classic back cushions, soft: chamber cushions filled with polyurethane foam cubes and feathers.

Tufted back cushions: chamber cushions filled with polyurethane foam cubes and ball fibres.

Pointed cushions and bolsters (Vitra Cushions): the cushions in the sizes 80 x 60 cm, 60 x 60 cm, 60 x 40 cm and the bolster measuring 54 x Ø 16 cm offer supportive comfort and are filled with 100% recycled PET fibres containing post-consumer waste; the 40 x 40 cm cushion offers soft comfort and is filled with 100% recycled polyester made of post-consumer waste.

Armrest cushion and headrest cushion: 100% recycled PET fibre.

Covers: removable.

Glides: non-slip.

Shelf: aluminium profile, powder-coated die-cast zinc with linoleum inlay.

Daybed: metal frame with wooden panel, polyurethane foam, soft seat cushion.

Covers: removable.

Glides: non-slip.

Ottoman, firm: wooden panel, polyurethane foam, firm seat cushion.

Ottoman, soft and tufted: wooden panel, polyurethane foam core and chamber cushion overlay (filled with polyurethane foam lozenges, latex and a mix of goose feathers and down).

Covers: removable.

Glides (for Suita Ottoman and Suita Club Armchair): glides for carpet or felt glides for hard floors.

Note: the designations 'left' and 'right' refer to the perspective when viewing the sofa from the front.

Note: ripples and indentations from sitting (pressure marks) and partially visible outlines of the chamber cushions are characteristic of high-quality, soft upholstery in combination with a removable cover and can be more or less pronounced, depending on the selected cover material. To retain the fullness and shape of your sofa, cushions should be regularly shaken and plumped.

Application: soft upholstery version recommended for domestic use only.

Individual cushions in many different sizes, cover materials and colours can be found in the Vitra Cushions collection at the end of the sofa chapter.

Plate Table

Jasper Morrison, 2004

vitra.

Table top: solid wood; oak, natural, hard-wax oil finish; oak, dark, hard-wax oil finish; powder-coated MDF; or Carrara marble, brushed and waxed; table thickness 15 mm.

Base: die-cast aluminium and powder-coated tubular steel.

Origin of wood: oak (Quercus robur) from Western Europe and/or Poland.

Outdoor applications: version with a Carrara marble top and powder-coated base suitable for use in outdoor conditions on a temporary basis. Avoid prolonged exposure to rain, snow or direct sunlight. Product may be kept in covered outdoor spaces protected from the elements.

Eames Wool Blanket

Charles & Ray Eames, 1947

vitra.

Material: 100% Merino lambswool, produced in a jacquard weave.

Characteristics: Merino lambswool is a high-quality natural fibre obtained from the first shearing of Merino lambs. It is extremely light, fine and soft to the touch while also providing optimal warmth and thermal balance.

Quality: working with premium natural fibres requires considerable technical know-how and manual skill. For this reason, Vitra blankets are made by a German blanket manufacturer with over 100 years of experience in fabricating products from natural fibres. Their expert hand craftsmanship ensures the high-quality execution of the designs.

Soft Seats Outdoor 2023

vitra.

Soft Seats type A

Soft Seats type B

Soft Seats type C

Materials

Upholstery: padding made of water-permeable polyurethane foam for outdoor use, 2-cm thick.

Cover: quick-drying, antibacterial outdoor fabric, resistant to light, water and mould, with zip fastener (always in black), removable. Cover can be washed at 30 degrees.

Outdoor use: suitable for utilisation outdoors on a temporary or seasonal basis, following care instructions. After prolonged exposure to the elements, clean and store away in a cool, dry place to ensure lasting use and avoid any deterioration in appearance.

Note: always with non-slip fabric on reverse side.

Cushions for supportive comfort

Vitra Cushion 60 x 40

Vitra Cushion 54 x Ø16

Vitra Cushion 60 x 60

Vitra Cushion 80 x 60

Cover: removable; diverse types of fabric and leather with different material compositions. To avoid shrinkage or damage, covers should be professionally cleaned – do not put in the washing machine.

Filling: the cushions in the sizes 80 x 60 cm, 60 x 60 cm, 60 x 40 cm and 54 x Ø16 cm provide supportive comfort and are filled with 100% recycled PET fibres from post-consumer waste; the cushions measuring 40 x 40 cm, 50 x 50 cm, 65 x 55 cm, 40 x 30 cm and 65 x 30 cm offer soft comfort and are filled with 100% recycled polyester made of post-consumer waste.

Note: cushions should be regularly shaken and plumped to retain their fullness and shape.

Lampe de Bureau

Jean Prouvé, 1930

vitra.

Material: powder-coated sheet steel, 1 bulb included.

Socket: E14.

Light source: ToLEDo RT Candle.

Dimmability: no dimmer.

Kelvin: 2700 K (warm white).

Plug: Euro flat 2-pin (type C plug), UK 3-pin (type G plug) or US 2-pin (type A plug).

Cable length: from cable outlet to switch 50 cm, from switch to plug 200 cm.

Max. watt: 12 W.

Energy efficiency: F

The chapter 'Quick Ship programme' lists products available with a fast delivery. Their article numbers begin with 'QS'.

Vitra delivers standard order quantities from stock. Items sent with standard packing are dispatched in the next scheduled shipment, involving no extra cost.

Items can be ordered in the Online Sales Configurator Pro (OSC Pro) <https://professionals.vitra.com/s/offer/> provided stocks are available, and the respective delivery times can be checked. However, if the daily quota is exhausted, no delivery times will be shown.

Other versions, special orders and stock orders are not available through the Quick Ship programme.

All products in the Quick Ship programme are identified in the price list by a lorry symbol.

* The material cannot be ordered from Vitra in linear metres/hides.

** The covers are knit-to-fit and not available by the metre.

Visitor chair, using the example of the Softshell Chair
Dimensions measured in accordance with EN 1335-1:2000

- A Seat height**
(measured in back third of seat surface with applied weight load of 64 kg)
- B Seat depth**
(distance from front edge of seat to foremost point of the lumbar zone)
- C Seat width**
(measured in back third of seat surface with applied weight load of 64 kg)
- D Height of top edge of backrest from seat surface**
(measured at central vertical axis with applied weight load of 64 kg)
- E Height of armrest from seat surface**
(measured from back third of seat surface with applied weight load of 64 kg)
- H Height**
- I Width**
- J Depth**

Lounge chairs and armchairs, using the example of the Eames Lounge Chair

- A Seat height**
(highest point of the seat in new condition, without applied load, measured along axis of symmetry)
- B Seat depth**
(distance from front edge of seat to foremost point of the lumbar zone)
- C Seat width**
(horizontal to central vertical axis with applied weight load of 64 kg)
- D Height of top edge of backrest from seat surface**
(measured at central vertical axis with applied weight load of 64 kg)
- E Height of armrest from seat surface**
(measured at central vertical axis with applied weight load of 64 kg)
- G Maximum base radius**
(including castors/glides)
- H Height**
- I Width of upper part**
- J Depth of upper part**

With upholstered furniture, dimensions can vary by up to approximately 30 mm due to varying firmness and a tolerance range for the convex profiles of foam padding.
If the seat height measured in accordance with EN 1335-1:2000 is listed, it has been measured in the rear third of the seat surface under a weight load of 64 kg.

Sofas, using the example of the Suita Sofa

With upholstered furniture, dimensions can vary by up to approximately 30 mm due to varying firmness and a tolerance range for the convex profiles of foam padding.

If the seat height measured in accordance with EN 1335-1:2000 is listed, it has been measured in the rear third of the seat surface under a weight load of 64 kg.

General Terms and Conditions of Sale (Sweden) of Vitra International AG, Birsfelden, Switzerland

The following terms and conditions apply to all sales and deliveries of Vitra International AG ("Vitra" or "we") in the territory of Sweden unless otherwise agreed in writing. Any terms or other conditions contained in any purchase order or other form used by customer to order products that are different from, in addition to, or in any way inconsistent with Vitra's General Terms and Conditions of Sale are rejected and shall be of no force or effect.

1. Offers and conclusion of contract

Our offers and quotations are non-binding and subject to change. A binding contract is only concluded upon receipt of Vitra's written order confirmation. Orders confirmed by Vitra ("Confirmed Orders") are binding.

Illustrations and descriptions in our price lists, catalogues and any other documentations as well as any samples submitted are not binding for the execution of the goods. Changes in construction, variations in wood grains and minor deviations in design or colour shading are reserved.

2. Delivery terms

Deliveries are made DAP (Incoterms 2020) to the customer's delivery site in Sweden and are exclusive of installation, unless otherwise noted in any Confirmed Order. Where a Confirmed Order comprises more than one item, deliveries may be made in instalments depending on the availability and nature of the products (partial deliveries). If deliveries are made in instalments, Vitra may issue a separate invoice for each instalment. Each partial delivery may be invoiced separately. Dispatch and choice of freight carrier are at Vitra's discretion.

Indications on delivery dates and times are approximate, unless we have specifically declared them to be binding in writing. Any modifications requested by the customer extend the indicated delivery times. When call-off orders are made, the call-off must be made at least four weeks prior to the requested delivery date.

In the event that the customer is in default of acceptance, the goods will be stored at the customer's expense, with monthly storage charges amounting to at least 1 % of the invoice value.

3. Transfer of risk

All risks of loss and damage shall pass to the customer at the time Vitra places the goods in the possession of a freight carrier or any other third party responsible for the delivery. Transport insurance is only taken out at the customer's request and expense.

4. Prices

Unless otherwise noted, prices are stated in SEK and exclusive of any VAT, customs duties and other public charges.

Prices are inclusive of dust-protective wrapping or any other standard packaging as determined by Vitra. Non-standard packaging materials are invoiced to the customer at cost.

Should the factors underlying the price formation (raw materials, transportation costs, collectively agreed wages, customs duties) increase prior to the delivery of the goods, Vitra shall be entitled to charge the customer the corresponding price increase in addition to the Confirmed Order price.

5. Payments

Invoices are payable within 30 days (net) from the invoice date, unless otherwise agreed. Payment is considered received as soon as and to the extent it has been credited to our bank account.

Vitra is, at its sole discretion, entitled to request a partial or full prepayment at any time. Should payment be delayed, interest in arrears at a rate of 5% shall be automatically charged to the customer. In the event that customer's payment is delayed for more than seven (7) calendar days, or if there are justified doubts as to the customer's solvency, we are entitled to (i) revoke all credit, (ii) reject any further orders of the customer and (iii) withdraw from or suspend any as yet unfulfilled part of purchase contracts already concluded with the customer, in each case without incurring any liability to the customer.

The customer may only set off counterclaims against our claims if customer's counterclaims are uncontested or established as final by a competent court of law. In particular, the customer is not permitted to withhold payment or make deductions to invoiced amounts in the event of complaints relating to the goods.

6. Retention of title

Title to and ownership of goods supplied by us shall remain vested in Vitra and shall not pass to the customer until the purchase price has been paid by the customer in full. Customer shall be obliged to store relevant goods in such a way as to enable them to be identified as our property and is prohibited from pledging or using the retained goods as a security without our written consent. Until title to the goods passes, upon our request, customer must facilitate our repossession of the goods and we or our agents shall be entitled at any time to enter the property in which the relevant goods are stored. In case of repossession, we may claim rent and damages for potential use of the goods, plus legal costs and transportation costs. Further claims for improper use of the goods remain reserved. Irrespective of whether title to the goods remains vested in Vitra, risk shall pass to the customer in accordance with Sec. 3.

As a precautionary measure, the customer assigns to Vitra in advance all rights arising out of the potential further sale of goods to which we retained title in accordance with the foregoing. Upon our request, the customer must inform the purchasers of relevant goods about the assignment of rights and hand over the necessary documentation to us.

As long as the customer meets his commitments towards Vitra, the customer may dispose of the unpaid goods according to normal business practice and collect the assigned receivables.

7. Warranty and defects

Vitra warrants that new goods and second-hand goods sold via its "Vitra Circle for Contract" program ("C4C Products") are free from defects in material and workmanship at the time of transfer of risk (see Sec. 3). The warranty period shall be two (2) years from the date of delivery. All other warranties are expressly excluded. In particular, any warranties are excluded for second-hand goods that are not C4C Products.

Vitra's warranty does not apply to defects, damage, failure or loss resulting from (i) improper use or incorrect handling or modification of the goods (e.g. treatment of fabrics with unsuitable chemical agents), (ii) non-compliance with the instructions for use or exposure to unsuitable environmental conditions (climate, humidity, chemicals, direct sunlight), (iii) maintenance by unauthorized persons, (iv) normal wear and tear (e.g. regarding castors, surfaces) and (v) the use of customer owned materials (COM). In case of C4C Products, signs of previous use do not constitute a defect. Vitra is not responsible for damage to goods which occurs in transit. Damages in transit shall be notified to the responsible carrier in writing immediately after receipt of the goods and Vitra shall be informed accordingly.

The customer must check the delivered goods immediately upon receipt. Defects in the goods supplied, discrepancies in quantities supplied or incorrect delivery must be notified to Vitra within eight (8) calendar days from receipt of the goods. In case of hidden defects, the customer shall notify Vitra within five (5) calendar days after having detected such defect. Otherwise, the customer shall lose its claims with regard to these defects.

If any goods prove to be defective, we will, at our own discretion, either rectify the defect or deliver a comparable replacement product (or replacement product part). If repair or replacement is commercially impracticable, we may grant the customer a refund or price reduction for the defective goods. There shall be no other right of claim against us. Delivery of a replacement product does not result in a renewal or extension of the warranty period.

Vitra's liability is strictly limited to the aforementioned obligations. Vitra shall bear no liability for any indirect or consequential loss, loss of profits or loss of business of customer howsoever arising. No limitation applies to Vitra's liability for death or personal injury, damages caused by Vitra's willful misconduct or gross negligence or in case of mandatory product liability.

8. Force majeure

We shall not be responsible or liable for any failure or delay in the performance of our obligations caused by, directly or indirectly, forces beyond our control or the control of our suppliers, including, without limitation, strikes, breakdowns, work stoppages, accidents, acts of war or terrorism, civil or military disturbances, catastrophes and interruptions, epidemics and pandemics (including Covid-19), loss or malfunctions of utilities, communications or computer (software and hardware) services.

9. Data protection

We only capture, process or use personal data in accordance with applicable data protection law provisions. Details are set out in our Privacy Policy, which can be accessed at <https://www.vitra.com/cpt> or requested from us at any time.

10. Governing law and jurisdiction

The legal relationship between Vitra and the customer shall be governed by Swiss law, excluding the UN Convention on Contracts for the International Sale of Goods (CISG). The place of jurisdiction shall be Muttenz, Switzerland. However, we shall be entitled to sue the customer at his residence or seat of company.

11. Severability

In case any provision in these General Terms and Conditions of Sale shall be invalid or unenforceable, the validity and enforceability of the remaining provisions shall not in any way be affected or impaired thereby and such provision shall be ineffective only to the extent of such invalidity or unenforceability.
